KENTUCKY WEATHER REPORT.

What We May Expect Between This Time and To-morrow Evening.

THE LEDGER'S WEATHER SIGNALS.

White streamer—FAIR; Blue—RAIN or SNOW; With Black ABOVE—TWO or WARMER GROW. If Black's BENEATH—COLDER 'TILL BE; Unless Black's shown—no change we'll see.

The above forecasts are made for a period of thirty-six hours, ending at 8 o'clock to-morrow evening.

GRAND FINALE—BOOM-TA-RA.

Blaine don't stand no chance at all, Turn his picture to the wall, Grandpa's hat has got the call, Ben's the belle of this ere ball, With Ben the party ne'er can fail, He's the man that swipes the ball, Clear o'er the Democratic wall, And fills the "demmys" full of gail.

Boom ta-ra-ra, boom ta-ra, "Mamma dear, where is my par?" He left the White House, ha, ha, ha, The worst beat man you ever saw, And this is why we must take Ben, Just to put him back again, Ben's the boy for honest men, Then hip hooray for "Little Ben."

"Ben is here—he's come to stay," This is what the people say, Ben's no Indiana Jay, If some folks do not vote his way, As President he's out of sight, And that's the reason here to-night, For Ben we'll sing and shout and fight, And drink red beer till broad daylight.

WELL, HERE YOU ARE!

The Best Way to Have Standard Time is to Have It.

It didn't require an act of Congress to start the United States mails on standard time.

The railroads adopted a uniform time, and the mails had to move according to it or not move at all.

It doesn't require an ordinance of the City Council to notify a Maysvillian that if he wants to take a train on the C. and O. he must get to the Depot on standard time.

He must get there according to that time or get—left.

It doesn't require a city ordinance to regulate the hours when one family shall go to bed, or get up, or have breakfast.

When a man may begin work, or quit work, or sit down, or stand up, or whether his clock shall be half an hour faster or ten minutes slower than his neighbor's, are not matters for municipal regulation.

They are private affairs solely, and, being such, each citizen can regulate them to suit himself.

Now, if the people of Maysville want to adopt standard time, all they have to do is to adopt it.

Just turn your clocks and watches twenty-six minutes backward.

And let the abortion of a "town clock" and the few old grannies tick and kick till they get tired.

The way to get standard time is to get it.

Charity Should Begin at Home.

Here's a chance for some of our friends who are so solicitous for the heathen ten thousand miles away to do a little missionary work nearer home. The Ashland News tells of a man who, with two little girls, aged 4 and 6, respectively, walked two hundred miles to reach the railroad leading to that city. He had been living in Clay county, where his wife and three children died with diphtheria. He sold his boots to pay his way to Ashland on the railroad, and reached there barefoot, with thirty-five cents and almost naked. There are more particulars given; but these should be enough to warrant the statement that it is not necessary to go outside of Kentucky to find good use for the money that is wasted abroad. If we were a betting person, it is dollars to doughnuts that this man couldn't tell whether the Saviour died on Calvary or in New York, or that he couldn't know the difference between the New Testament and Poor Richard's Almanac.

THERE are seven cases of smallpox at Pittsburgh.

THE Whisky Trust has won a victory in the United States Courts in Ohio. In the Circuit Court at Cincinnati Judges Jackson, Taft and Ricks decided that none of the counts in the indictment returned at Boston against L. H. Green, a director of the trust, constituted a violation of any law of the United States, and they ordered his release. In the District Court at Cleveland a similar decision was made in the cases of F. H. Corning and J. H. French, also under indictment at Boston.

Death of Mrs. McGranaghan.

Dr. J. T. Strode has just received a telegram from Lexington announcing the death of Mrs. Dr. W. H. McGranaghan, which occurred at twenty minutes past four yesterday afternoon.

The remains will be brought to this city this evening, and the funeral will be at 10 o'clock to-morrow morning at the Central Presbyterian Church. Services by the Rev. B. W. Mebane.

THE LEDGER has received, with the compliments of one of the officers, the proceedings of the Tenth Annual Session, G. A. R. of Kentucky. The pamphlet is very creditable to the Ohio printer who did the work; but, to an outsider, it looks as though this work might have been done in Kentucky by some of the many printers who are constantly called upon to fill their columns with thank-you notices. These are the sort of things that make a newspaper man say ugly words sometimes—and he has a perfect right to do so. Next time they want a few columns of free notices they ought to take them to Ohio for publication.

THE merchant will miss it if he doesn't have a card in the unique Fourth of July issue of THE LEDGER.

AD BROWN is able to be out again, after being confined to his home many months by a severe spell of sickness.

STATE SENATOR PARKER of Laurel county will resign his seat about July 1st to make his future home in California.

REV. N. W. DARLINGTON, while returning from Manchester to West Union, O., was badly injured by his horse throwing him down an embankment.

W. B. CARPENTER has closed his house in Covington, and he and Mrs. Carpenter have taken up their home at the Grand Hotel, Cincinnati. They will leave for the East in a few weeks to remain all summer, and on their return will reside in Cincinnati.

THE body of Miss Maloney, the last victim of the Golden Rule disaster, has been found at Cincinnati. It was identified by a fragment of the braided jacket she wore, all that was recognizable about the terrible spectacle that was once a fair human form.

INCREDIBLE as it may seem in this country and in this enlightened century, John O'Neil, a citizen of Vermont, has been sentenced to fifty-four years' confinement at hard labor, because he sold liquor in that state, where the traffic in intoxicating beverages is prohibited!

JOHN COOK, the only Democratic Postmaster in Adams county, O., and who manipulated the mails at Selig, sent in his resignation. The salary at Selig is about \$2 per month. The vacancy will probably be filled by John P. Levi, a general merchant at that place.

THE Grand Jury of Fayette county has been trying to break up pool selling in Lexington for years. They took a new turn Saturday by indicting Chief of Police Letcher Lusby for malfeasance in office for not arresting the keepers of poolrooms and bringing them before the court for violating a city ordinance. It also indicted him for not arresting Councilman Matt McNamara a short time ago for being drunk on the streets. The penalty for malfeasance in office in Kentucky is fine and imprisonment and forfeiture of office.

AUSTRALIA'S PEST.

Twenty Million Descendants from One Pair of Rabbits Within Five Years.

The plague of rabbits in Australia cannot be described without seeming exaggeration to those who have not had experience of it, says an article in Scribner. Originally introduced in a colony of about a score of individuals by a squatter near Melbourne, who thought their familiar presence on his station would "remind him of home," they have kept the recollection of England so fresh in the minds of pastoralists as to tempt them to very treacherous language concerning her whenever rabbits are mentioned.

The fecundity of the rabbit is amazing, and his invasion of remote districts swift and mysterious. Careful estimates show that under favorable conditions a pair of Australian rabbits will produce six litters a year averaging five individuals each. As the offspring themselves begin breeding at the age of six months it is shown that, at this rate, the original pair might be responsible in five years for a progeny of over 20,000,000. That the original score which were brought to the country have propagated after some such ratio no one can doubt who has seen the enormous hordes that now devastate the land of certain districts. In all but the remote sections, however, the rabbits are now fairly under control; one rabbit with a pack of dogs supervises stations where 100 were employed ten years ago, and with ordinary vigilance the squatters have little to fear. Millions of the animals have been killed by fencing in the water holes and dams during a dry season, whereby they died of thirst and lay in enormous piles against the obstructions they had frantically and vainly striven to climb, and poisoned grain and fruit have killed myriads more. A fortune of \$25,000, offered by the New South Wales government, still awaits the man who can invent some means of general destruction, and the knowledge of this fact has brought to the notice of the various colonial governments some very original devices.

Mary Washington's Family Bible.

The family Bible of George Washington's mother, now owned by Mrs. Lewis Washington, of Charleston, W. Va., has been loaned for exhibition at Mount Vernon. It is a cover of homespun cloth put on by its original owner. The Washington Post says that the book is wonderfully preserved for its age and all of its pages are still intact except the first five or six that were torn out and placed in the corner stone of the Mary Washington monument at Fredericksburg, Va. The first entry in it is of the marriage of Augustine Washington and Mary Ball in 1731, and the next is of the birth of George Washington, February 11, 1733 (o. s.).

Wealth of British Prelates.

The announcement that Cardinal Manning, who was at one time enormously wealthy, his father having been a governor of the Bank of England, had only left a sum of six hundred dollars at his death, recalls to mind the large personal properties of the bishops and archbishops of the church of England. An examination of the records of the probate office shows that the bishops of that church who have died during the last thirty years have left an average personal property of two hundred and twenty thousand dollars each. These figures do not include the value of the real estate possessed by the prelates or any sums invested in policies of life insurance or otherwise settled for the benefit of their families.
